Lend A HELPING HAND TO DURWARD'S GLEN

Durward's Glen has served our community for over 100 years as a parish and currently as an oratory. We have been a place for organizations "to retreat" and have offered Catholic retreats for many years. A very generous donor has offered to match dollar for dollar any donations received from now through December 31, 2025 up to \$100,000. That means any donation will be doubled for Durward's Glen's benefit. These funds will mean Durward's Glen can offer retreats at low rates allowing more people to benefit from them and will enable us to make needed capital improvements such as electrical wiring, new windows, roof replacement, etc. To donate to Durward's Glen, call us at (608) 356-8113, mail your check to Durward's Glen Retreat Center, W11876 McLeisch Road, Baraboo, WI 53913, or scan the QR code below. (All donations are tax deductible.)

Our community is rallying to provide love, support, and financial assistance to help ease the Murray family's burden during this difficult time. Your generous donation, no matter the amount, will help cover medical bills, rehabilitation costs, and other essential expenses, allowing Jada to focus on supporting Connor and caring for their children without the added stress of financial strain. Every dollar counts, and every prayer lifts their spirits. Find the Caring Bridge link with the QR code to the right. It will give updates on Connor, and provide a link for donations.

We all had a blast at our annual Halloween bash! A huge thank you goes out to all the parents and volunteers who made the event such a success. As always, we couldn't have put it together without their time, energy, and creativity. We had party games, cookie decorating, face painting, a scavenger hunt, and much, much more.

Check out the cool costumes and the smiles that never seemed to end!

THE GREAT TIMES TABLE QUEST!

Learning your multiplication facts is an important part of growing up. In order to be successful in math class for the years to come – and find order in God's beautiful creation – our students need to know the facts! The third graders are working hard to memorize their times tables all the way up to 12 before January 2026. To do this, they take study at home using times table bookmarks and dry-erase activities.

FLOWER POWER!

This week the first graders learned how to compare living things. They dissected and observed different kinds of flowers, and then took field notes on what they saw! With some exploration, they were quick to see the great variety of beauty God has given for us to enjoy.

We are seeking individuals, or businesses, to partner with our school and buy a share in a Catholic Schools Week activity. We are seeking the community's help to bring our adventures to life for this

year's theme: United in Faith and Community! Your support will go directly toward providing high-quality experiences for our students and helping us celebrate the joy of Catholic education in a memorable way.

If you would like to buy a share, or learn more about the sponsorship opportunities, please contact Ms. Daniela or Miss Kim at by Dec. 5th.

Every contribution - big or small - helps our students embark on meaningful and memorable Catholic Schools Week activities. Sponsors and donors will be gratefully acknowledged in our event communications and school materials. Thank you for supporting our students, our school, and the mission of Catholic education!

Photography = Recording Light

This trimester, the 7th and 8th graders are learning about photography. They have learned various strategies for achieving the ideal light and angle for a shot. Adjusting measurements for the F-stop, shutter speed, or ISO has allowed them to experiment, finding the perfect combination of light and shadows. We greatly appreciate Joe Hinrichs, from Forever Photography, for sharing his expertise and equipment with these curious students!

DIABETES AWARENESS MONTH

The month of November has a special place in our hearts because it is Diabetes Awareness Month. Friends, Helen and Rosie, sat down to have a conversation about diabetes. Rosie, who lives with diabetes every day, was diagnosed in 2019. When asked how she felt when she first found out, Rosie said, "I felt shocked and scared at first. But then when I got to the hospital, I felt comforted." Diabetes is a condition where the body cannot produce its own insulin, leading to high blood sugar levels. Rosie has specific medicine and special tools to help her control and keep track of her blood sugar numbers. When she eats carbs, she needs to give herself medicine, which she calls a "bolus." Sometimes this means she has to practice patience and wait to eat until her body is ready. Rosie says now she can give herself the bolus. Diabetes has taught her many things. She has overcome her fear of needles and become more independent through the years since she was diagnosed. It has helped her grow in virtues like self-control and humility. When asked what lesson she wants to teach people about diabetes, Rosie said, "People with diabetes can do everything you can do!" She is always willing to answer a question from anyone and teach everyone about diabetes.
